# TECHNOLOGY HAS CHANGED THE GAME.

A futuristic industrial setting, possibly a factory or a laboratory, with a man in the foreground wearing a complex, metallic, cybernetic suit. The suit covers his chest, shoulders, and arms, featuring various mechanical components, pipes, and a small screen on his chest. He has a beard and is looking off to the side. In the background, there are large, complex mechanical structures, including a large robotic arm and several smaller figures in similar suits working on a production line. The lighting is dramatic, with strong highlights and deep shadows, creating a high-tech, industrial atmosphere.
